MEMORANDUM FOR THE RECORD

25X1A5A1

SUBJECT: Copyright Clause in 

25X1A5A1

I discussed with General Cabell the background of the copyright clause in the  contract, and he was quite satisfied on the basis that the Government's rights were fully protected and we were in full control of copyright applications. I also talked to Mr.  OIC, and suggested that in the contract now being negotiated we specifically state that applications for copyright must be submitted in advance to the Agency for security clearance. This should not be objectionable to  and, in fact, is for their own protection.
